

LYNN ASSOCIATES, INC.

*Partnering Technology with Business*

## Mechanical Division

Lynn Associates, Inc. represents major names in the Precision Environmental Control and Critical Cooling industry offering a diverse product line to meet and exceed your organizations critical cooling and power requirements.

### **Powerful Solutions for Your Business**

The manufacturers represented by Lynn Associates, Inc. include globally recognized names such as PermAlert and Wright-Line.

The products we represent include:

- **Industry-leading Critical Cooling Solutions**
- **Leak Detection**
- **Rack and Containment Systems**

Celebrating  
39 Years!

**Lynn Associates, Inc.** has been serving the Data Center and electromechanical manufacturing industries since 1984. Our organization is a vital link, helping to define customer needs, integrate solutions and implement the transactions for leading manufacturers of high quality Precision Cooling systems. Our sales associates will assist you in meeting your critical cooling requirements by working with your team and consulting engineers from the initial design stages to overseeing the completed system installation.

**Lynn Associates, Inc.** serves customers in the Data Center, Financial, Telecommunications, Medical, Multi-tenant Data Center, Cloud Computing, and Manufacturing markets, among others. For all of your critical cooling requirements, along with efficient and reliable technical support 365 days a year, turn to Lynn Associates, Inc. for the right equipment to meet your business needs.
